

## Industrial Stormwater General Permit - Errata Sheet

### Errors in the Permit and their Corrections

Struck-out language (e.g., ~~30 minutes~~) indicates incorrect language, and the underlined language (e.g., 12 hours) indicates the correct language.

#### Final Permit

Page 22; Condition S4.B.3.c.&d.	c. A notation describing if the Permittee collected the sample within the first <del>30 minutes</del> <u>12 hours</u> of <i>stormwater</i> discharge events. d. An explanation of why it could not collect a sample within the first <del>30 minutes</del> <u>12 hours</u> of a <i>stormwater discharge</i> event, if it was not possible.
Page 5; Summary of Reports and Submittals	<del>S9.D</del> <u>S9.E</u> Noncompliance Notification As necessary Within 30 days of noncompliance event
Page 54; Appendix 2 - Definitions	<i>Notice of Termination</i> (NOT) means a request for termination of coverage under this <i>general permit</i> as specified by Special Condition <del>S4</del> <u>S13</u> of this permit.
Page 6; Condition S1, Table 1	Mining and Quarrying of Nonmetallic Minerals, <del>except Fuels</del> (Except facilities in SIC codes <del>1411 ; 1422-1423-1429-1442-1446-1445; 1459; 1499-1411, 1422, 1423, 1429, 1442, 1446, 1455, 1459, and 1499; these facilities are covered under the Sand and Gravel General Permit.)</del>
Page 6; Condition S1, Table 1	Petroleum Refining and Related Industries (Except facilities in SIC 2951; <u>these facilities are covered under the Sand and Gravel General Permit.</u> )
Page 6; Condition S1, Table 1	Stone, Clay, Glass, and Concrete Products ( <u>Except facilities in SIC 3272-3273; these facilities are covered under the Sand and Gravel General Permit.</u> )
Page 7; Condition S1, Table 1	Transportation facilities which have <i>vehicle maintenance</i> shops, <del>material handling facilities</del> , equipment cleaning operations, or airport deicing operations:
Page 34; Condition S7.C.1.c.	Statements that, in the judgment of 1) the person conducting the site inspection, and 2) the person described in Condition G2-A, the site is either in compliance or out of compliance with the terms and conditions of the SWPPP and this permit.

**Fact Sheet**

Page 93; Paragraph 1	The deadline for completing Level 2 is approximately? 135 days following the DMR deadline for the monitoring period (quarter) that triggered the Level 2 response.
Page 68; Paragraph 1	The rationale for the recommendation is that the “one-hour after discharge” criteria was “very difficult to meet; it essentially means that all storms that begin outside regular working hours will not <del>quality</del> <u>qualify</u> and an almost immediate response would be needed for [sampling] a storm event.”
Page 59; Paragraph 6	This exclusion does not apply to stormwater discharged under the authority of a Phase I or <del>Phase I</del> <u>Phase II</u> municipal stormwater permit, except the Washington State Department of Transportation (WSDOT) municipal stormwater permit, which authorizes the discharge of stormwater associated with industrial activity from WSDOT vehicle maintenance facilities.
